To Whom May Concern

I am a long time resident of Connecticut for 51 years first and foremost, I love this state raised my children here and Connecticut will always be my home.

Lately I am confused on what the leaders of this state are doing none of these bills will prevent crimes and the crimes that our state can prevent you have failed miserably to prevent and the criminals you catch you haven't prosecuted them to the fullest of the law. What are your ulterior motives?

These bills appear to make taxpayers and those who visit this state less secure your bills are oriented toward anarchy.

All firearms legislation has a direct impact on our right to bear firearms. Owning firearms is not a criminal activity. Criminals do not follow the law and these bills will not help to fight crime nor will it stop gun violence what it will do is make this state that I love less safe.
